2. **The initial purchase price on the Purchase Agreement has been calculated based on the current prices for the component building materials. However, the market for the building materials is considered to be highly volatile, and sudden price increases could occur. Jerry's Homes agrees to use our best efforts to obtain the lowest possible prices from available building material suppliers, but should there be an increase in the prices of these specified materials that are purchased after execution of the contract, the Home Buyer agrees to pay the increased purchase price by the amount of such increase to Jerry's Homes. Additionally, if there are material availability issues needed to complete the construction of the home, closing dates are subject to change at any time.**

3. During construction if you would like to view your home, you or your agent must notify our Jerry's Homes listing agent prior to viewing. It will need to be scheduled after business hours and your agent must be present. You will be required to wear a hardhat while on site. Once you have had your home orientation, we request that you do not enter the home until final sign off with one of our field staff. If you do encounter field staff while on site, please note that they are not authorized to make changes that defer from what is already written in the purchase agreement. Any changes need to be addressed and agreed upon through an addendum signed by all parties. Changes will be subject to a change fee.

4. No changes can be made to a home once a closing date has been given.

5. Closing Home Orientation: The final closing home orientation will be scheduled directly with the homeowner and occur no sooner than five (5) business days prior to closing.
